HOW WE WORK

A simple path from idea to launch.

01
Discover

We map your goals, users, and constraints in a focused workshop — then share a clear scope and timeline.

02
Design

UX flows and UI in Figma. You review weekly so the product feels right before we write production code.

03
Build

Agile sprints with a full-stack team. Live progress, staged releases, and no surprises on scope.

04
Launch & grow

QA, store listing, handover, and optional retainer so the product stays fast, secure, and current.

CLIENT VOICE

"Working with the Teqrix was an excellent experience. They understood our vision for CrowdAfrik and translated it into a clean, modern, and powerful platform. Their attention to detail, timely
